Executive Summary

This report highlights progress that has been made in the implementation of the Consolidated Plan for Housing and Community Development. The report covers the time period of May 1, 2005 to April 30, 2006. Activities discussed in this report include those implemented by the City of Fargo Planning and Development Department and the Fargo Housing and Redevelopment Authority (HRA).

Resources

The City of Fargo received a CDBG award of \$789,140 in fiscal year 2005. This represented a 5 percent reduction from the prior year. The City received a HOME award in the amount of \$523,640.

Community development programs realized \$405,523.50 in program income revenue in the 2005 program year: \$270,056.03 from the HOME program and \$135,467.47 from CDBG activities.

Grant Management

All of the activities undertaken by the City of Fargo in fiscal year 2005 met one of the three HUD National Objectives. 84.9 percent of CDBG activity expenditures provided benefit to low and moderate income households and/or areas; 15.1 percent was spent on the elimination of slum/blighted conditions. 11.5 percent of CDBG expenditures went to public service activities and 19.6 percent was spent on Administration-related activities.

100 percent of non-admin HOME fund expenditures provided benefit to low income households.

The City has also complied with the other grant management requirements associated with the HOME and CDBG programs in 2005 (timeliness, match contribution, and CHDO reserve).

Priorities

Housing continues to account for more than half of all community development spending authorized by the City. Efforts focus on overall affordability concerns, with specific attention to affordable home ownership opportunities. Of the total \$1,455,326 in federal funds spent in 2005, 70 percent went to fund affordable housing or homeownership activities. 50 percent of the CDBG funds that were spent in 2005 funded Owner and Rental Housing Rehab, and Housing Education projects. All of the non-administrative HOME funds went directly to housing activities, funding owner occupied rehab, the downpayment assistance program, and special housing projects.

Summary of Resources

Community development activities are carried out by the Community Development division of the Fargo Department of Planning and Development. The majority of administrative support for these activities is funded by HUD grant dollars; however, a portion of staff salaries and program operating costs are funded with city general fund revenues.

	FY 2004	FY 2005
CDBG		
Grant	\$835,000.00	\$789,140.00
Program Income	\$271,442.69	\$135,467.67

TOTAL RESOURCES	\$2,776,250.12	\$2,367,512.73

¹ 2005 ADDI funds were awarded to the City of Fargo by the State of North Dakota from the state allocation.

FEDERAL RESOURCES

Direct allocation of Grant Funds

The City of Fargo received a CDBG award of \$789,140 in fiscal year 2005. This represented a 5 percent reduction from the prior year. The City received a HOME grant of \$523,640.

The chart below illustrates the importance of “program income” to Fargo’s overall community development budget.

	CDBG	HOME	Program Inc	Total
1999	849,000	405,000	393,102	\$1,647,102
2000	852,000	505,000	375,239	\$1,732,239
2001	883,000	562,000	606,817	\$2,051,817
2002	866,000	592,000	315,224	\$1,773,224
2003	861,000	704,679	506,367	\$2,072,046
2004	835,000	647,466 ²	560,402	\$2,042,868
2005	789,140	568,640 ³	405,524	\$1,763,304

Activities generating program income

The City realized more than \$405,523.50 in program income revenue in the 2005 program year: \$270,056.03 from the HOME program and \$135,467.47 from CDBG activities.

Loan Payments

A total of \$89,121.47 in CDBG loan repayments was received in PY 2005. This included a \$70,000 loan payment (loan due payable upon sale of property) and \$19,121 in regularly scheduled loan payments. There were also two outstanding economic development loans in repayment in 2005; these loans were originated in the mid-1990s.

In 2003 the City’s Owner occupied housing rehab program started providing assistance both as deferred payment and amortized loans. In the 2005 program year, the City received \$14,728 in HOME program income from rehab loan payments.

Sale of Property

None of the reported program income in the 2005 program year came from the sale of CDBG owned property or from property which the city had an interest in.

Recaptured Funds

The Housing Rehab program (HOME and CDBG) and the Downpayment Assistance program (HOME) are long-standing programs of the City of Fargo. These programs generate recaptured funds each year, the majority of which is attributable to the HOME program. Funds are recaptured when a homeowner sells his or her property prior to the stated forgiveness period attached to the mortgage. Recaptured funds are based on net proceeds of the sale.

The City received \$3,500 in recaptured funds from a PJ-originated downpayment assistance loan (HOME), \$251,827.51 in recaptured funds from downpayment assistance and housing rehab loans originated with HOME funds received from the state of North Dakota, and \$42,083 in recaptured CDBG funds from housing rehab loans.

² This includes an ADDI allocation of \$55,625, received directly from HUD.

³ This includes an ADDI allocation of \$45,000 received from the State of North Dakota.

Other

The Native American Center (#46) pays a monthly rent of \$225 for use of the facility that is owned and maintained by the City. There are also parking spaces for rent adjacent to this building which brings in about \$100 per month. A total of \$4,263 in miscellaneous revenues was returned to the CDBG program in the 2005 program year.

Administrative Requirements

Expenditure Caps

All of the activities undertaken by the City of Fargo in fiscal year 2005 met one of the three HUD National Objectives. 84.9 percent of CDBG activity expenditures provided benefit to low and moderate income households and/or areas. 11.5 percent of CDBG expenditures went to public service activities and 19.6 percent was spent on Administration-related activities.

100 percent of non-admin HOME fund expenditures provided benefit to low income households.

CHDO Reserve Projects - HOME

As a PJ, the City was required to commit no less than 15% of its 2005 HOME allocation to CHDO projects. In FY2005, the City participated in the Bluestem Townhomes project, which was undertaken by a CHDO. It received funding in the amount of \$120,000 (\$108,000 drawn in 2005). This is the first year HOME funds were invested in the project; the intention is to provide a second grant to this project with 2006 funds. The project involved the construction of 30 LIHTC-financed rental units that serve a very low income population (most earn less than 50 percent of area median income).

Funds were committed and disbursed for this project during the 2005 program year. This commitment (#379) represents 22.9 percent of the city's 2005 HOME allocation.

Timeliness / Rate of Expenditure

The City of Fargo was timely in its expenditure of federal resources for both the CDBG and HOME programs during the 2005 program year.

The HOME program requires that 100 percent of funds be committed within two years and spent within five years of the program year in which they were received by the PJ. In 2005, the City of Fargo had a total of \$568,640 available for commitment (\$523,640 authorized as grant funds and \$45,000 as ADDI funds) - 39% of the total available 2005 grant was committed to activities in the 2005 program year, and 31% was actually disbursed during that time period. 100% of the 2004 grant was committed and disbursed as of the end of the 2005 program year.

The CDBG program requires that an entitlement community have no more than 1.5 times its grant in the line of credit three months before the end of the program year. In March 2006 (date of PY2005 timeliness test for Fargo), the City had an "unadjusted" timeliness ratio of 1.08 (1.08 adjusted).

OTHER RESOURCES

Leveraging

The City of Fargo is cognizant of the need to leverage federal funds with non-federal sources. Efforts are underway in the areas of neighborhood revitalization, housing rehab, and homelessness.

Housing Rehab. The City has partnered with a private lender, Gate City Bank, to establish a loan fund for renovation of homes in older neighborhoods.

Neighborhood Revitalization. New infill construction in older neighborhoods is being accomplished in partnership with the Fargo Public Schools building trades programs and the local Habitat for Humanity affiliate.

Homelessness. The City's 10-Year Plan to end long term homelessness calls for extensive partnerships within the community and throughout the state. There are opportunities for city, state, not-for-profit, and for-profit partners to help us achieve the goals outlined in the plan.

Matching Requirements

Upon becoming a Participating Jurisdiction, the City of Fargo became responsible for documenting appropriate match in conjunction with the receipt of HOME funds. For the 2005 program year, match liability was incurred on the entitlement funds received from HUD.

The following table shows the city's match activity between May 1, 2005 and April 30, 2006. This reporting period is as per CAPER requirements. The City's actual match obligation is determined on a federal fiscal year basis (October 1 – September 30).⁴

2005 Program Year	
Funds Drawn	\$688,399
Match Liability incurred	\$94,223
Value of Match Contributions recognized during 2005 program year	\$117,701
Match as % of Total Liability	125%

Special Activity notes

Acquisition, Relocation or Displacement.

The CDBG-funded rental rehab program helps improve the quality of and preserve the affordability of rental units in downtown Fargo. When the units are occupied, the owners often encounter the need to temporarily relocate tenants to accommodate the rehab schedule. Short term temporary relocation occurred in two projects that spent CDBG dollars in the 2005 program year: 14 Roberts Street Rental Rehab (#300) and 228 Broadway Rental Rehab (#248). The tenants in these buildings were covered by URA provisions and received the required assistance during the period of temporary relocation.

⁴ Please note that the City is also current on its match obligation when looking at the federal fiscal year.

No new properties were purchased with CDBG funds this year. None of the owner-occupied rehab projects funded with HOME dollars in 2005 required relocation of the families, as necessitated by the lead paint work that was included in the project.

Economic Development Activities.

The City reported spending on nine economic development projects in the 2005 program year but, none of them had a designated benefit of "low/mod jobs". These activities focused on the elimination of slum and blighted conditions in the downtown area.

Job training was the focus of activity #161 (Skills Development Project). This project provides targeted job skill development to low income individuals (special focus on refugees and underemployed individuals receiving public assistance). In 2005 this project provided funding that allowed 2 low income clients to complete a job training course in manufacturing readiness. The project closed out in the 2005 program year; in total the funds set aside for this project have provided job training assistance to 50 persons. CDBG funds were used to fund the training costs for individuals who do not qualify for any of the other job training resources that are already available through other community programs (i.e., Job Service WIA funds, et al.).

Presumed benefit activities.

None of the activities reported in the 2005 CAPER were "presumed benefit" activities.

Activities generating program income.

The State Division of Community Services allows the city to retain any HOME program income/recaptured funds earned from the funds they awarded to the City as long as those funds are re-applied to an eligible activity. The North Dakota HOMENet system is the method by which these funds are reported and tracked. Any CDBG program income earned by the City is receipted in to IDIS during the monthly draw process and is then applied to an eligible activity.

Both the HOME and CDBG program return program income to the city each year. More detailed discussion of activity-specific income generation can be found in the "resources" section of this document.

Rehab activities.

The Fargo owner-occupied Housing Rehab program is funded with a combination of CDBG and HOME funds. The program typically assists approximately 25-30 housing units per year. In 2005, the program assisted 28 separate housing units, completing 23 in that time period.

- CDBG - \$95,048 in grant funds
- HOME - \$160,921.61 in ND DCS program income funds and \$121,957.34 in PJ grant/program income funds matched with \$58,149.50 from the homeowners
- TOTAL - \$377,927 in grant funds and \$58,149.50 in private homeowner contributions

The City funds a Rental Rehab program that provides a deferred payment loan to property owners interested in renovating affordable rental units in the downtown area. In 2005, the CDBG rental rehab program completed renovation of 22 units (another 18 were underway). The program is set up as a matching program, with the CDBG loan forgivable after five years if the property is maintained as affordable to low/mod tenants for the duration of that compliance period.

In addition, the City provided HOME funds for the rehabilitation of rental units in one CHDO projects (Bluestem Townhomes). The project will add 30 units of townhouse-style rental housing when it is complete (2006 program year).

One-for-one Replacement Requirement

Federal funds were not used in the demolition or conversion of any housing units in the 2005 program year. As such, the Section 104(d) one-for-one replacement requirements were not triggered.

On-site inspection of assisted rental housing (HOME)

The city is scheduled to conduct on-site file monitoring and unit inspections of three HOME-assisted projects in June 2006. The projects receiving on-site monitoring are:

- Sister's Path, 12 HOME units (12 units total)
- Graver Rehab, 14 HOME units (60 units total)
- YWCA Transitional Housing, 2 HOME units (2 units total)

In addition, the City facilitated the regular on-site inspections required for state-funded HOME projects as per the established monitoring schedule.

Performance Measurement Summary

PROGRESS ON AGENDA SET IN 2005 ACTION PLAN

All of the projects identified in the 2005 Action Plan are either underway or completed. With the exception of the Mental Health Association Drop-in Center, all projects are progressing according to schedule with completion anticipated for most of the remaining projects in the 2006 program year. The funding approved for the Drop in Center project will be withdrawn in PY2006 if the applicant is still unable to secure the remaining funds that are necessary to complete the project.

The City of Fargo continued to support community development related activity in the community by providing certifications of consistency with the Consolidated Plan in fair and timely manner.

Expenditure Summary 2005 Action Plan Activities

Activities	CDBG Budgeted	HOME Budgeted	Status	Funds Drawn from '05 Activity	% of '05 Budget drawn in PY05
1. Housing Rehab – Owner	85,000	320,461	Underway	299,396	93%

⁵ Budgeted amount increased from \$90,000 to \$120,000 in July 2005.

⁶ Budgeted amount increased from \$166,140 to \$181,153 in October 2005.

RELATIONSHIP OF ACTIVITIES TO THE CONSOLIDATED PLAN

The City has provided requested certifications of consistency for HUD Programs in a fair and impartial manner, for which the City indicated that it would support application by other entities. The City did not hinder Consolidated Plan implementation by action or willful inaction.

Assessment of progress toward locally-established 5-year goals

The 2005 program year is the first year included in the 2005-2009 Consolidated Plan. The Consolidated Plan outlined six policy goals that were to be the focus of Fargo's community development activities in the short term. The following table lists the goals and the amount of CDBG and HOME money spent by goal in the 2006 program year.

	CDBG Funds spent in '05	<i>% of CDBG funds drawn</i>	HOME * Funds spent in '05	<i>% of HOME funds drawn</i>	TOTAL FUNDS SPENT	<i>% of Total funds drawn</i>
1. Affordable Housing	\$379,180	50%	\$391,295	56%	\$770,475	52%
2. Homeownership	\$28,601	4%	\$232,376	34%	\$260,977	18%
3. Homelessness	\$1,195	0%	\$0	0%	\$1,195	0%
4. Neighborhoods	\$97,217	13%	\$0	0%	\$97,217	7%
5. Fair Hous/Diversity	\$46,992	6%	\$0	0%	\$46,992	3%
6. Poverty Reduction	\$36,127	5%	\$0	0%	\$36,127	2%
Administration	\$177,614	23%	\$64,729	10%	\$242,343	16%
Total	\$766,926		\$688,400		\$1,455,326	

* Includes HOME funds received as a PJ, as a subrecipient of the state of North Dakota, ADDI and program income

**See the table on p. 10 for detailed budget information

Housing continues to account for more than half of all community development spending authorized by the City. Efforts focus on affordability, with specific attention to affordable home ownership opportunities. Of the total \$1.455 million in federal funds spent in 2005, 52 percent went to fund housing activities. 50 percent of the CDBG funds that were spent in 2005 funded Owner and Rental Housing Rehab, and Housing Education projects. All of the non-administrative HOME funds went directly to housing activities, funding owner occupied rehab, the downpayment assistance program, and special housing projects.

Summary of Activities funded with CDBG and HOME by Fargo's Consolidated Plan Goals

Includes projects with fund draws in PY2005

Assessment of Progress toward Macro Program Goals

The Department of Housing and Urban Development has embraced two national goals in addition to the three basic goals for successful community development. These goals represent activities that span the practice of community development.

1. End Chronic Homelessness by 2012 (*Administration*)
2. Expand Minority Homeownership (*Administration*)
3. Provide Decent Housing (*HUD*)
 - Assisting homeless persons obtain affordable housing
 - Assisting persons at risk of becoming homeless
 - Retention of affordable housing stock
 - Increase the availability of affordable permanent housing to low and moderate income families, particularly to members of disadvantaged minorities
 - Increasing the supply of supportive housing, which includes structural features and services to enable persons with special needs to live in dignity and independence
 - Providing affordable housing that is accessible to job opportunities.
4. Encourage a Suitable Living Environment (*HUD*)
 - Improving the safety and livability of neighborhoods
 - Increasing access to quality public and private facilities and services
 - Reducing the isolation of income groups within areas through spatial deconcentration of housing opportunities for lower income persons and the revitalization of deteriorating neighborhoods
 - Restoring and preserving properties of special historic, architectural, or aesthetic value
 - Conservation of energy resources
5. Expand Economic Opportunities (*HUD*)
 - Job creation and retention
 - Establishment, stabilization, and expansion of small businesses (including microbusinesses)
 - Provision of public services concerned with employment
 - Provision of jobs to low income persons living in areas affected by those programs and activities, or jobs resulting from carrying out activities under programs covered by the plan
 - Availability of mortgage financing for low income persons at reasonable rates using non-discriminatory lending practices
 - Access to capital and credit for development activities that promote the long term economic and social viability of the community
 - Empowerment and self-sufficiency for low income persons to reduce generational poverty in federally assisted housing and public housing

The goal of the City of Fargo is to enhance, maintain and sustain a livable community that includes a vibrant downtown integrated with surrounding neighborhoods that offer a wide range of housing choices and mixed uses. In the 2005 program year, Fargo's community development activities were aligned with the above-stated macro program goals.

1. End Chronic Homelessness by 2012. The City initiated a strategic planning process focused around the goal of ending long term homelessness in our community in 10 years (2016). More information on the city's 10-Year Plan on page 23 of this document.

2. Expand Minority Homeownership. Continued support of homebuyer education courses offered by the Village ensures that information about homeownership is available to people who need English language interpreters (courses were offered with Spanish and Bosnian interpreters and one-on-one video sessions for people with limited English proficiency) and that the course is offered in ways that make it easier for people to participate (ex. full day class for people who cannot do evening hours). In 2005, 7.1% of the Fargo residents who took the homebuyer education course were minorities.

3. Provide Decent Housing. The majority of projects funded by the City of Fargo have the intended goal of providing decent housing. The owner occupied rehab program has been a cornerstone of Fargo's community development efforts for 20 years. It has preserved as viable more than 800 units of affordable housing (23 new units completed this year). The Bluestem Townhomes project provides affordable housing for low income families in one of Fargo's newest neighborhoods, offering close proximity to employment opportunities on the community's south and west sides. In addition, a significant amount of staff time has been spent in the last year on the development of strategies that will assist homeless people in obtaining permanent housing. The 2006 and 2007 budgets are likely to include several projects that further the established goals.

4. Encourage a suitable living environment. The Bluestem project has as one of its primary benefits, the deconcentration of affordable housing. It is one of the first low income housing tax credit projects for families in Fargo's newest neighborhoods. There are other senior-only projects in the growth areas that also contribute to this distribution of affordable housing throughout the community. The investments made in downtown have made immense improvements in the overall livability of the downtown neighborhood and have helped preserve dozens of historic properties that contribute to the context of the Downtown Historic District.

5. Expand Economic Opportunities. City staff have been involved in two economic development projects in the 2005 program year (micro-enterprise development and availability of capital for residential and commercial). The involvement to this point has been in the form of technical assistance and not direct financial investment. Both have the potential to create economic opportunity for low income minority households in the community.

Measurement of Program Outcomes

The 2005-2009 Consolidated Plan outlines a baseline system the City of Fargo will use to measure performance of local community development programs and progress toward achievement of goals. Program outcomes will be measured by a series of fourteen indicators that are intended to identify changes in neighborhood/community quality of life. Measures 1-4 are included at HUD's request; measures 5-8 are locally initiated. Measures 9-14 were selected on the basis of research conducted by the Urban Institute; their study identified key indicators of neighborhood quality of life.

Measure #1: Homeownership rates in targeted neighborhoods/community

Source: 2000 Census, 2005 City Assessor/City Inspections

The city's records are not organized in a way that guarantees precision on housing unit/housing tenure analysis by neighborhood. However, the information in the following table can provide some insight into housing dynamics at the neighborhood level.

Neighborhood	# of Housing Units (2005)	% of Units Single Detached or Twin Home ** (2005)	Homeownership Rate (2000 - Census)	Homeownership Rate (2005 - City)
North Neighborhoods

*** An additional 328 housing units are not located in a currently assigned neighborhood

Measure #2: Total # of minority households assisted in becoming homeowners

Source: City

4 of the 51 downpayment assistance projects that closed in 2005 funded minority homebuyers (black-non-hispanic).

Measure #3: Change in property values as result of rehab (*constant dollars/s.f.*)

Source: City

The average change in value per s.f. for rehab projects completed in PY2005 was \$7.27. The actual range of property value changes was \$0 to \$24,000.

The average investment per s.f. was \$21.30. The average ratio of dollars invested to gain in property value was 3.2 (i.e., On average, we can expect a \$1.00 change in property value for every \$3.20 invested in rehab).

Measure #4: Number of unit years of affordability in rental projects

Source: City

PROJECTS COMPLETED IN PY2005	Funding Source	# units	Affordability Period	Total Yrs of Affordability
Rental Units				
14 Roberts St	CDBG	11	5	55
6 11th St S	CDBG	9	5	45
312 1 st Ave N	CDBG	2	5	10

Source: 2000 Census P10 / 2005 American Community Survey

% households with children under age 18 headed by female

2000	5.3%
2005	8.9%*

**Note: ACS data subject to sampling error of approximately +/-3%. Staff has no reason to anticipate a significant change in this statistic in the last five years.*

Measure #14: Unemployment rate

Source: ND Job Service (<http://www.state.nd.us/jsnd>)

The unemployment rate in Fargo in 2005 was 2.8%. (2000 Census: 2.4%)

Assessment of Progress toward 5-Year Housing Need Goals

Appendix C updates the housing needs tables required by the 2005-2009 Consolidated Plan. The total number of units completed in the 2005 program year exceeded the goal set in the 2005 Action Plan; however, the actual allocation of units by household income and household type was slightly different than anticipated (ex. most of the owner occupied rehab households were in the 50-80% of median income category).

The Homeless Population/Subpopulations chart shows that zero units were completed in 2005 but, the city is likely to start funding more units in these categories starting with the 2006 program year.

Measurement of Program Outputs

The table on the following page provides information on households and homeless persons assisted with housing by the City of Fargo. Records of the persons assisted are maintained in the office of the Fargo Planning and Development Department and are also included in the IDIS Reporting System.

The accomplishment summary reflects outcomes that resulted from projects that had spent money in the 2005 program year. Since this report is based on money spent as opposed to money budgeted in the 2005 program year, it is difficult to answer the question "did the city meet its goals for the year" unless we look at accomplishments on a project by project basis. To that end, each of the activities achieved the expected outcome that was established at the beginning of the project.

Other Actions Undertaken

AFFIRMATIVELY FURTHERING FAIR HOUSING

The City of Fargo Planning and Development Department last updated its *Analysis of Impediments to Fair Housing* in July 2002. The report identified the following issues as being potential barriers to fair housing choice.

- Fair Housing Education
- Historic Isolation by Income
- NIMBY (Not-in-my-back-yard) Syndrome
- Availability of Accessible Housing
- Affordability of Housing

The Planning and Development Department will continue to work in conjunction with other organizations interested in fair housing activities and will actively work towards the achievement of the goals and actions outlined in the City's Analysis of Impediments.⁷ The City will continue to work on enhancing local understanding of the specific housing issues faced by people with disabilities.

AFFORDABLE HOUSING

"Affordable housing" is a broad concept that must be brought to specificity in order for it to have meaning in a particular community. In the city of Fargo, we are working to foster and maintain affordable housing while also trying to eliminate any barriers to affordability that may exist.

A housing study completed in April 2005 indicated that affordability is, indeed, a problem that requires specific definition in the Fargo Moorhead area. The great competition in the local rental market means that rental housing tends to be relatively affordable. However, affordability gaps become apparent when looking at particular segments of the population, namely households at or below 30 percent of median income including both families with children and seniors. The segment of the population that is most likely to experience a significant rental housing cost burden is the senior population over age 75.

The situation is similar in the homeownership market. Even though housing prices are affordable in Fargo Moorhead, relative to other metro areas, they are still out of reach for most households earning less than 60 percent of area median income.

The city's housing rehab programs, both federally and locally funded, are the most important tool we have to preserve and maintain the community's existing stock of affordable housing. Regardless of the fact that rehabilitation of homes is becoming increasingly expensive, it is still an economic reality that our best source of affordable housing lies with our existing housing stock. The costs of new construction make the creation of a significant amount of new affordable housing a difficult proposition. This fact spurs the city to continue funding rehabilitation programs for owner-occupied units over 40 years old and rental units in the downtown area. Local funds are used to finance the rehabilitation of owner occupied units in the neighborhoods immediately surrounding the central business district.

⁷ The Analysis of Impediments to Fair Housing Choice can be downloaded from the Planning Department web site at: <http://www.cityoffargo.com/housing>.

In 2005, the City was also able to use HOME funds to support the creation of new affordable housing units by a local CHDO (Bluestem Townhomes) and by the local Habitat for Humanity affiliate.

The City will continue to work with the private and non-profit sectors to create new and maintain existing affordable housing opportunities in the community, with specific attention to the hardest-to-serve populations (households at or below 30 percent of area median income for rental housing and 60 percent of area median income for owned housing).

One such promising effort is the Metropolitan Workforce Housing Initiative, which brings together policy makers and community members from the entire FM metro area to assess the housing needs of the local workforce and to begin developing consensus around strategies that we can and will pursue as a region. While workforce housing is not the only area of housing need (seniors, disabled, homeless), it is definitely a place to start.

ACTIONS TO ADDRESS UNDERSERVED NEEDS

There were no “underserved populations” specifically identified in the 2005 Action Plan. However, there are certainly subpopulations within the community which are less likely to be actively engaged in the public process surrounding community development activities. As such, the City has taken several steps to ensure continued meaningful engagement with refugee/ethnic communities, minority communities, persons with disabilities, and low income populations.

The Fargo Human Relations Commission (HRC) is advisory to the City Commission and has a stated mission to promote acceptance and respect for diversity and discourage all forms of discrimination. The Planning Department is responsible for staffing the HRC, which is also the organizational home of community development planning in the City of Fargo. This connection helps further the city’s community development goals and the stated goals of the HRC. The HRC is monitoring fair housing and discrimination issues in the City via research, public forums, a locally available complaint reporting process, and regular opportunities for public comment on issues of discrimination and fair housing.

The City’s continued support of both Cultural Diversity Resources and CHARISM also displays a commitment to conducting meaningful outreach to the communities that are most likely to become disenfranchised and/or have their voices go unheard. Each organization has developed ongoing relationships with low income and refugee communities. They serve as trusted “connections” to under-represented communities and help ensure that the city’s community development programs are designed to meet the needs of the residents of this community.

NEIGHBORHOOD REVITALIZATION EFFORTS

Neighborhood revitalization is a goal that underlies much of Fargo’s community development activity. City staff are particularly mindful of the needs of residents living in low/mod neighborhoods and in older neighborhoods that are beginning to experience symptoms of decline.

POVERTY REDUCTION

There is perhaps no issue that is more complex than poverty reduction. Many of the programs that exist in our community address the immediate needs of families living in poverty and/or in crisis. However, to reduce poverty, one needs to look at the root causes underlying poverty. The most obvious answer to the question “why are people poor” is that they don’t earn enough money to sustain an adequate

standard of living. So creating jobs that pay a living wage is an important poverty reduction activity. Likewise, job training and job readiness programs are essential if people are to be prepared to work. The ancillary programs that support low income families who are working include child care, transportation, and health care. Even if working full time, housing subsidies are often still needed to make a family budget work.

In the absence of any one of these elements of support, job creation alone will not reduce the number of people living in poverty. There are other organizations in the community whose focus is economic development. As such, the City participates in the funding of several of the service areas needed to support work, including child care (school age and preschool age), job training, and transportation.

LEAD PAINT

Lead paint hazard regulations affect the city's rehab (owner and renter) and downpayment assistance programs, as well as special needs housing projects funded with federal dollars. The programs have integrated necessary testing procedures at the front and back end of each project as required. City staff continues to search for ways to reduce the costs and time lags associated with lead testing and assessment. We also continue to actively recruit contractors for lead paint training, with the intention of increasing the pool of available contractors who have staff trained in safe work practices.

AFFIRMATIVE MARKETING AND MBE/WBE CONTRACTING

Recipients of HOME funds are monitored for compliance with the city's affirmative marketing policy throughout the periods of affordability. The City also continues to work with small businesses and minority/women owned businesses whenever possible.

CONTINUUM OF CARE

The City of Fargo participates in the statewide Continuum of Care, through the Region V Continuum of Care Committee. All of the projects submitted by North Dakota as part of the 2005 Continuum of Care application received funding. Three of the approved projects was located in Fargo in 2005 (2 renewals and 1 new S+C project). The following is a list of all Fargo projects that have received funding since the state started submitting applications for McKinney Vento funds.

- 2001/2003 - Share House - Sisters Path Project, Permanent supportive housing for homeless women and women with children - \$800,000 grant and renewal (54 family beds, 0 individual beds)
- 2002 - Fargo Housing And Redevelopment Authority – Shelter Plus Care Project, Permanent supportive housing for individuals and families with disabilities, \$706,272 renewal (62 family beds, 13 individual beds)
- 2003 - YWCA Cass Clay, Transitional housing for homeless women and women with children. Duplex, \$294,024 grant (15 family beds, 0 individual beds)
- 2003 - YWCA Cass Clay Transitional Housing, Transitional housing for homeless women and women with children, 4-plex, \$346,535 renewal (10 family beds, 0 individual beds)
- 2003 - Centre, Inc. – Vet's Manor, Permanent supportive housing for veterans with disabilities, \$236,862 grant (0 family beds, 11 individual beds)
- 2005 – Fargo Housing and Redevelopment Authority – Shelter Plus Care vouchers, \$418,836 (11 units)

- 2005 – Share House Inc. – Renewal, Sister’s Path, Permanent Supportive Housing (12 units)
- 2005 – YWCA Cass Clay – Renewal, Transitional Housing, \$213,519 (4 units)

The Fargo Moorhead community also works hard to maintain a well-developed local and metropolitan network of services and resources that are an asset to the entire region and state. There is a high level of interconnectedness between service providers, which means that there is an extensive and broad based knowledge of the local system and community needs. The local emergency shelters are key access points in the system, providing a wide range of services and serving as a source of referrals.

10-YEAR PLAN TO END LONG TERM HOMELESSNESS

As has much of the nation, the City of Fargo has increased the amount of attention paid to the issue of chronic homelessness in the last several years. The city of Fargo participated in the federally-sponsored Policy Academy training process in 2003 and holds a chair on the North Dakota Interagency Council on Homelessness (established in spring 2005). In the fall of 2005, the City Commission agreed to develop a “10-Year Plan to End Long Term Homelessness.” This plan is due to be approved in August 2006.

The planning process includes representatives from more than 40 organizations from across the metro area and endeavors to identify effective solutions for housing the long term homeless population living in this community. (The full plan will be available on the city’s web site as it becomes available: www.cityoffargo.com/homelessness.)

HOUSING AND REDEVELOPMENT AUTHORITY

The HRA is responsible for managing low-rent public housing and Section 8 rental assistance. They own and manage 600 rental units: 366 one-bedroom units, 140 two-bedroom units, 71 three-bedroom units, and 23 four-bedroom units. In 2004 FHRA had approximately 1,100 Section 8 vouchers to serve the community. They also operate the 22 unit SRO project at 69 4th Street North.

FARGO PUBLIC HOUSING AUTHORITY RENTAL SITES

Project	Address	Total Units	Unit Type
Lashkowitz High Rise (14-1)	101 S 2 nd Street	247	Elderly/ Disabled

INSTITUTIONAL GAPS AND ENHANCED COORDINATION

In addition to the community and statewide coordination that is occurring around long term homelessness, the city is also participating in the "Metropolitan Transportation Initiative", which is being coordinated by the Fargo Moorhead Council of Governments and was originally funded with a DOT Reverse Commute/Access to Jobs grant.

This effort brings together major social service providers and transportation-focused agencies to address in a coordinated fashion the ongoing transportation needs of low income people. The project hired a coordinator in late 2004 and has made strides in providing coordination to the fragmented system of local transportation assistance. Transportation is often identified by low income residents and by the homeless as being one of the key barriers they face. This effort is the most exciting opportunity our region has had to enhance the level of service and assistance that is available in the community.

Self Evaluation of Annual Performance

CONSISTENCY WITH PERFORMANCE MEASURES

Fargo's investment of federal and local funds is consistent with the city's established goals. To evaluate "successful performance" we need to ask ourselves if our actions are making an impact on identified needs. The City's Consolidated Plan identifies several measures that are intended to help indicate both progress and changes in identified needs.

The 2005 CAPER is the city's first attempt to report performance measures. As such, there is no "trend" data to analyze. The statistics do show continued health in the housing market - Fargo's mortgage approval rates far exceed national rates. Housing prices rose at a higher rate than they have in recent years (7.9%) but, the growth is still modest when compared to many other growing urban areas.

One area of potential concern is in current opportunities for mortgage financing and the sustainability of homeownership. While on the surface it is encouraging to see a 6% increase in mortgage approval rates over the last five years, it is unlikely that Fargo's borrowers became that much more credit worthy in such a short time. It is more likely that changes in residential lending policies (further evidenced by the shift from FHA to Conventional in the last five years) have allowed more borrowers to obtain financing than ever would have been possible before. Today even most mainstream lenders offer "sub-prime" financing products to borrowers with less-than-perfect credit. While expanded access to capital is essential for families to build wealth through homeownership, it can also be a slippery slope that leads to personal economic hardship if boundaries are pushed too far.

It may be wise to expand efforts to promote financial literacy amongst city mortgagees as well as others in the community.

The City should also continue to monitor homeownership trends at the neighborhood level. The statistics in measure #1 don't show any major changes in neighborhood composition between 2000 and 2005; however, there are several neighborhoods that continue to see significant conversion of housing units from owner to rental status. Vacancy rates in the local rental housing market may help stem some of the increase in investment property. In fall 2005 the City joined with three other communities in the region to look at the impact rental housing conversions can have on residential neighborhoods. The city's Joint Study on Rental Housing includes discussions with community representatives on potential solutions.

In addition to objective measures of outputs and outcomes, the City's Consolidated Plan also recognizes that subjective inputs are necessary to create a true portrait of change. While there is not yet a citizen survey that can measure neighborhood perceptions, the community's decision makers have continued to demonstrate both a commitment to and an understanding of community development activities and goals.

The Housing Authority Board continues to be proactive in its efforts to increase the supply of affordable housing in the community. The Human Relations Commission is diligent in its outreach and research efforts relating to both discrimination and fair housing issues. The Community Development Committee evaluates projects with the priorities of the Consolidated Plan in mind, helping to create a community development program that is responsive to community needs.

GRANT MANAGEMENT

In addition to monitoring the efficacy of the programs that are funded with CDBG and HOME dollars, city staff is also mindful of the need to evaluate our grant management performance. The city draws funds from HUD/DCS on a reimbursement basis. We complete a monthly draw request based on funding requests received, verified and paid out during the previous month. We keep spreadsheets that detail spending progress for both the HOME and CDBG programs. One of the CDBG reports that is run following every draw is the timeliness report. Fargo has set a goal of achieving the "1.5" target by December of each year (our timeliness test is March 1). We achieved that objective in 2005.

Sub-recipient monitoring is an ongoing process for us as well. Each recipient agreement outlines expected outcomes and minimum monitoring requirements. All low/mod activities submit quarterly benefit reports to our office. Those statistics are entered in to IDIS as narrative throughout the year. The quarterly benefit reporting gives city staff an opportunity to work with projects that may be having difficulty meeting their objectives before they get too far into their project. We also facilitate annual rental compliance certifications for DCS HOME-funded rental rehab projects (DCS is the final review for these projects) and conduct our own annual compliance reviews for projects funded with the HOME funds we receive directly as a PJ. The city has established a regular monitoring schedule for all HOME and CDBG funded rental projects.

All of the activities that list low-mod clientele as the appropriate benefit require the project applicant to submit benefit information to the city on a quarterly basis. Each recipient agreement outlines the required benefit parameters. The information is entered in to IDIS on a quarterly basis.

Individual Activities

None of the activities currently underway or those funded with 2005 grant funds are behind schedule to any significant degree. The Community Development Committee is tracking the expenditure of downpayment funds to ensure continued compliance with HOME commitment requirements and to ensure continued program effectiveness.

As a general rule, the City works with projects that stall to either help the project move ahead or to re-allocate funds to another activity that is more ready to proceed in a timely manner.

Multi-Year Certification - CDBG

Fargo has adopted the three-year certification option. The current certification period includes the 2005, 2006 and 2007 program years. As such, the spending reported in the 2005 CAPER is the spending for the first year of the three-year period.

The following tables provide a summary of the multi-year spending outlook. The “denominators” for each calculation are listed below (prior year program income and current year grant and program income). The 2005 calculation indicates that 85 percent of spending subject to calculation was targeted to LMI benefit activities. Slum/Blight spending accounted for 15 percent of spending. We are currently on track with the cumulative three-year low/mod requirement of 70%.⁸

			2005-2007 Multi Year Calculation	
Prior Yr	Program Income	\$271,442.69	2005 Cumulative	\$585,774.46
Current Yr	Grant	\$789,140.00	2006 Cumulative	
Current Yr	Program Income	\$135,467.47	2007 Cumulative	
			<hr/>	
			Total Cumulative	\$585,774.46
			<hr/>	
			2005 Cumulative	\$497,557.61
			2006 Cumulative	
			2007 Cumulative	
			<hr/>	
			Total LMI Benefit	\$497,557.61
			<hr/>	
			Cumulative % LMI Benefit	85%

2005 Calculation		
	% Benefit LMI	84.9%
	% Benefit SBA	15.1%
	% Public Svc	11.5%
	% Admin	19.6%

⁸ For more detailed information on actual spending by category (LMI, SB, PS, Admin, etc), you can refer to the Administrative Requirements section (found on page 4) or the “Activity Summary” referenced in Appendix B.

Appendix A: Public Participation

The City of Fargo published the notice below as a public notice on June 2, 2006 to request public comments on this report. Public comments were due on June 20. There were no public comments were received. The report was submitted to the Planning Commission, Community Development Committee and City Commission, as per the Public Participation Plan.

PUBLIC NOTICE

The public comment period for reviewing the City of Fargo 2005 Annual Performance Report for the Consolidated Plan for Housing and Community Development will be held from June 2, 2006 to June 20, 2006. A copy of the report, along with any current public comments, will be available to the public at the Fargo Planning Department, 2nd Floor City Hall, 200 North 3rd Street, Fargo, ND. A copy of the report can also be obtained at <http://www.cityoffargo.com/planning> or by calling 241-1474. TDD 241-8258.
